Babson Discusses Stock Market Ads

(Exclusive to The NEWS)

A VERY revolutionary event is taking place on Wall Street. It is one reason for the better stock market which we recently have enjoyed. I refer to the new advertising campaigns of conservative banks and stock exchange firms.

From the early years of the New York Stock Exchange up to 1929, most financial advertising was of one of two classes: (a) Large splashing ads of new issues; or (b) very dignified small (Continued on Page Four)

MTA Fare Boost Taken In Stride

The general public—already accustomed to taking increased costs of necessities in stride—accepted the MTA fare increase without grumbling last Saturday. The average passenger seemed to have forgotten the glowing promises made by the politicians that deficits would be wiped out once the State took over the transportation system.

Instead, Arlington commuters, who are enjoying anything but ideal service on antiquated streetcars, simply dug down for an extra nickel for the privilege of riding from the Heights to Arlington Center.

Lengthy Session Seen

Arlington voters will act on 64 articles included in the warrant for the annual town election and town meeting, it was learned this week at the office of the Board of Selectmen.

The election, on March 6, will take on added importance since the voters at large will not only select town officials on that day but they will vote on the question of changing the setup of the town government. This calls for the acceptance of an Act authorizing the Selectmen to exercise the powers of the Board of Public Works, Tree Warden and Board of Survey. The Selectmen's board would be increased to five and the Act also calls for the appointment by the Selectmen of an executive officer whose duties would be similar to those of a town manager.

We welcome this opportunity during Boy Scout Week, February 6-12, to extend birthday greetings to the Boy Scouts of America on their 40th anniversary.

Their program of character building and citizenship training is a distinct asset to our community. The more Boy Scouts we have today the better America will be in the years ahead.

Scouting stands for the highest ideals in our national life. Let us do all in our power to expand this vitally important movement.

LOCAL WOMAN'S CLUB MARKS ANNUAL AMERICAN HOME DAY

An all-day meeting of the Arlington Woman's Club in observance of American Home Day, took place last Thursday in Robbins Town Hall.

Mrs. Americo Chaves, president, extended greetings and presided at the brief business meeting.

The Arlington Woman's Club Chorus, directed by Mrs. Arthur J. Mansfield, presented in song, "An Informal Gathering at Home." Many features were offered, including a duet by Florence Mansfield and Eleanor Shute, a solo by Mildred Griffin, and a specialty by Margaret Hupfer. The program proved most novel and entertaining.

Mrs. J. Milton Washburn, Jr., next introduced Miss Vittoria Rosatto, professor at Lowell Textile Institute and Mrs. Marion Shiffert, director of International Fashions of New York, who staged a fashion show. New Spring styles were shown by charming models.

Luncheon was served at 12:30 o'clock at the Pleasant Street Congregational Church, by the Mystic Side Group.

The afternoon session opened at 2 with selections by the Arlington High School orchestra under the direction of L. Hassler Einzig, supervisor of music.

The guest speaker, Dr. John F. Conlin, director of medical education of the Massachusetts Medical Society, was introduced by Mrs. Hollis M. Gott, chairman of the American Home Committee. Dr. Conlin's analysis of the timely and highly controversial subject "Socialized Medicine" was very enlightening. Highlights of his talk appear in another column.

Cups and saucers both antique and modern were attractively arranged in the art corners by Mrs. Harold Clare, Mrs. John Pez and Mrs. Fred Butler of the art committee.

Reception Planned For New Members

The reception to new members of the Arlington Catholic Women's Club will take place in St. Agnes School hall next Wednesday evening at 8 o'clock.

Mrs. Vincent L. Green, president of the League of Catholic Women, will be present and Mrs. Norma Woodward Sharkey, monologist, will be guest artist. Mrs. William Lanigan, chairman, will be assisted by Mesdames John Quinn, Eugene Monahan, Joseph Churchill, William Keefe, John Igo, Benjamin Benanati, Thomas Brown, Edwin Brown, George Higgins, William Hauser, Harry O'Reilly, John McGrath, John Smith, Thomas Burns, Myles Beaton, William MacDonald, Cyril Lanigan, John Mahoney, Matthew Powers, Edward Kelley and Miss Marie Lanigan.

Legion Auxiliary

The American Legion auxiliary will meet next Monday evening in Legion Hall. A Pan-American program has been planned by Chairman Carrie Scribner. A country store will also be held under the direction of Gertrude Dunbury and Ann Myatt. Gladys Kiely will preside.

Fine Arts Concert Due Next Sunday

Next Sunday and Sunday, Feb. 12, at 3:00 p. m. at the Robbins Town Hall, the Philharmonic Society of Arlington, Leo Litwin, conductor, will present a youth concert under the auspices of the Arlington Council of Parent-Teacher Associations.

This concert is the second of a series of three programs for young people, a play, a concert, and a ballet.

Included in the programs for the two concerts are: the Overture to "Mignon" by Thomas; Concerto for Clarinet by Weber; Barbara Ward, soloist; Andante from Haydn "Surprise" Symphony; Finale from the Violin Concerto by Mendelssohn; Norman H. MacNeil, soloist; March of the Peers, Gilbert and Sullivan; Jericho, a choral arrangement of Strauss's Blue Danube Waltz and The Battle Hymn of the Republic.

Sunday's concert is planned expressly for students in grades one through six; that of the 12th for grades seven through twelve.

Seventeen-year-old Arlington High School student, Miss Barbara A. Ward, will be clarinet soloist.

Twenty-one-year-old Arlington High School graduate, Norman MacNeil, will make his second appearance with the Philharmonic as violin soloist in the finale from Mendelssohn's Concerto in E Minor.

Tickets for the concerts are on sale in the schools. A limited number of single tickets will be available for adults at Farrington's Record Shop and at the door.

Compulsory Health Insurance Plan Not Cure-All, Dr. Conlin Tells Club

Compulsory health insurance is far from a cure-all, Dr. John F. Conlin, director of medical information and education of the Massachusetts Medical Society, told the Arlington Woman's Club at the American Home Day meeting in Robbins Town Hall last Thursday.

Referring especially to the proposed National Health Insurance Program, Dr. Conlin said it is one of the most vital questions and the most heated question today, since it affects everyone's physical, mental and social well being.

The socialization of medicine is only a part of the socialization of America," he declared. "Socializers don't gain power by the sword. They approach it by taxing earnings and doling back subsidies, government contracts, grants-in-aid, jobs and so on."

He argued that the health insurance plan is not insurance, but it is in reality a tax plan. He contended that while one out of six gets some benefit from the Government today, everyone owes the Government \$1750 to make these benefits possible. The proposed health plan, he stated, would add billions of dollars more in taxes.

Favors Voluntary Insurance

On the other hand, said Dr. Conlin, existing voluntary health insurance plans give protection through a sound prepaid system. They provide the finest medical, surgical and hospital care in the world on a budget basis. These voluntary insurance plans take the financial shock out of illness for \$5,000,000 Americans. They provide for a doctor of one's own choice, whereas it might not be so under a compulsory health insurance plan.

Dr. Conlin pointed out that 95 percent of the medical profession are opposed to socialized medicine, according to a private poll.

He said the Government promised much under the proposed plan, but guaranteed only one thing—another tax bill. He warned of the red tape that would be attached to such a plan.

The speaker, admitting that the average layman in England favors compulsory health insurance, pointed out that there is little or no resemblance between the European system and the American plan. The question is, he asked, "Will the proposed plan really meet our problem?" The problem of Massachusetts, for instance, is different from that of Minnesota, he said.

"There is no blanket solution," he continued. "What is good enough for England is not good enough for us." Under its system, thorough diagnosis of individual cases is impossible. If adopted in this country, it would mean lower standards of medical care and a substitute of quantity for quality, Dr. Conlin concluded.

To The People of Arlington

In order that the Town of Arlington may recruit its share of the anticipated growth of Sachem Council we must have more volunteer workers.

If you can spare two hours each week to assist Scouting, you can make a contribution to the boyhood of Arlington which could not be purchased with money.

We look to parents to assist as volunteers in Scouting because their sons are enjoying and will continue to enjoy the Scouting program.

Call in person, write, or telephone any one of the men whose names appear on this page for information on how you may be of assistance in furthering this program. Or, write to Sachem Council, Inc., 1557 Massachusetts Ave., Lexington, Mass.

"STRENGTHEN THE ARM OF LIBERTY THROUGH SCOUTING"

With sincere appreciation, the Cub Scouts and Scouters of Arlington acknowledge the tireless service of the Den Mothers in all the Arlington Packs.

FORTY YEARS OF SCOUTING

A "good turn" by an unidentified British Boy Scout in 1909 to an American businessman who had lost his way in a London fog, led to the incorporation of the Boy Scouts of America in Washington, D. C., 40 years ago next Wednesday.
The late William D. Boyce, Chicago publisher, was so impressed with the helpfulness of the British Boy Scout, who declined his tip for the "good turn", that he accompanied the Scout to the office of Sir (later Lord) Robert Baden-Powell, founder of Scouting, learned about the program and brought a trunkful of pamphlets to America. Later, he incorporated the organization.
On June 21, 1910, a group of men representing 34 national groups interested in youth, started developing the organization and opened a temporary office in New York City.
From that modest beginning the Boy Scouts of America has grown in four decades until now it has an active enrollment of over 2,300,000 boys and adult leaders. Since 1910 more than 16,500,000 American boys and men have subscribed to the Scout Oath and Law.
Boy Scouts of America is dedicated to enriching the nation by helping its boys and young men to grow physically, mentally, morally and spiritually, says Dr. Arthur A. Schuck, Chief Scout Executive of the Boy Scouts of America, in his message to the nation on the occasion of Boy Scout Week.
The Boy Scout movement is flourishing in America because it enjoys the good will of all citizens. Sachem Council which incorporates the town of Arlington, itself has grown considerably in the past twenty-eight years. This growth would have been impossible without the help of many public-spirited adults who have served as leaders.
On the occasion of Boy Scout Week, we congratulate them, the Scouts and the Cubs in Sachem Council.

E. Baker. We urge our readers to support the efforts of his committee. We appreciate that drives of this kind seem to multiply in number. Yet, all will agree that heart disease appears to be taking more lives than ever before. Heart disease disables millions and kills more men, women and children than cancer, tuberculosis, pneumonia and accidents combined.
More research and more education, doctors say, will reduce the death toll and will help prolong lives. Thus the need for funds to finance local and national research, provide lectures, clinics and care for children with rheumatic fever.

Roger Babson's Column

(Continued from Page One)

"cards" of Stock Exchange member firms. The big ads were knocked out by the Securities and Exchange Commission after the 1929-32 debacle. The dignified "card" advertising has tended to die out because of lack of returns.

Another thing: Up to recently 90% of the financial advertising was to get people to buy new stock issues. Very little attention was given to continue investors interest in these issues after they were once sold. Hence, the market declined and investors often were compelled to take a loss if they later needed to sell. Almost no money was spent to interest investors in the standard issues which, for many years, have paid dividends and had a ready market.

New Era Has Come

Now all this has changed, at the earnest solicitation of Emil Schram, the able new New York Stock Exchange president. Many of these dignified Stock Exchange members are putting out attractive ads calling attention to the "Great Opportunities", "Large Incomes", and "Remarkable Security", that "a family with only a few hundred dollars" can find among the established stocks already listed on the Exchange.

Let me add that most of these advertisements are written in simple language which every reader can understand. Some have been prepared by expert ad writers and are pulling good results. All this is very revolutionary. It has never happened before since the Stock Exchange was started in 1792. This new policy has great possibilities.

When I was a young man I worked for the Saturday Evening Post which then had a small circulation and very little advertising. At that time "national advertising" was almost unknown. As Henry Ford was the father of mass production, so my friend Cyrus Curtis was the father of national advertising. Mr. Curtis had three rules for successful national advertising. These were—

(1) The ads must tell what the product can do for the readers. (Most of the advertising of that day merely glorified the concern doing the advertising.) (2) The ads must be of short sentences and words of one or two syllables. (This rule developed experts in advertising. There then were very few advertising agencies.) (3) The products advertised must be worthy, obtainable everywhere and sell at a stable price.

Continuous Advertising Necessary

As I read these new financial advertisements, I think they conform to Mr. Curtis' rules (1) and (2). They surely have a "new look" and if continually improved, should bring good results. "But"—as Mr. Curtis would say—"advertising to be successful must be continuous. Millions can be lost in advertising as well as made by getting discouraged and curtailing just before reaching the jack pot."

Mr. Curtis' rule (3) meant that the product must have a "stable market and, if possible, a fixed price". Stock Exchange firms cannot promise a fixed price for their wares. But they can talk only of security, income and marketability, making no reference to "profit possibilities". I go further and say (and this is very important) to make this new advertising campaign a permanent success, the Stock Exchange MUST STABILIZE PRICES and eliminate the big gyrations for which the Exchange has always been blamed. This, moreover, can be done.

The other MUST is that these firms cannot succeed by advertising only in the big city newspapers. The idle money awaiting safe investment with good income can best be found in small cities and towns. Even magazine cannot reach these "grass roots" prospective investors. Women can be reached by magazines, but the men who control the family investment policy can best be reached through small daily and weekly newspapers.

The NEWS OBSERVES

SNOW, that white stuff which normally covers the ground here for many weeks during the average winter, made a belated appearance this week, covering Arlington with a thick blanket. The two storms gave the Public Works Department an opportunity to test its snow removal equipment, including sidewalk tractor plows. And the men did a good job.

The Metropolitan District Commission expected to open its new ski slope, in the Blue Hills Reservation, to the public for the first time yesterday. The new layout, equipped with a rope tow and lighted for night skiing was designed by Andrew Canzanelli, Arlington engineer. Mr. Canzanelli and Edison Company officials tested the illumination and tow Wednesday night and found it satisfactory. The only thing lacking was enough snow to properly cover both the practice slope and that for the experts. All were hopeful that yesterday's additional snowfall would fill the bill.

4-H members in Middlesex County are putting on a cookie drive to raise funds for the dining hall at their Camp Middlesex in Ashby. This new building, being constructed, will enable 75 to attend camp each week, instead of 50. Most of the orders will be taken by 4-H'ers during the week of winter vacation and delivered during National 4-H Week, March 4-12.

The Arlington National Bank has just distributed a stock dividend of 50 percent to all its stockholders. The dividend was approved in Washington, on Jan. 17.

Don't be surprised to see James J. Carmody and James J. O'Leary of the Arlington Police Department in a western thriller or a video some day, and doing a good job at it. Last Friday, the police received a call that a white mongrel pup had broken through the ice on Spy Pond, about 30 feet offshore at Elmhurst road. Messrs. Carmody and O'Leary went to the scene, climbed a tree overhanging the pond, and with the aid of a rope, lassoed the dog. The pet was taken to police headquarters and placed in the boiler room where he found it much more cozy than Spy Pond waters.

For Atty. Magnuson

To The Editor,
It is very gratifying to me personally as it must be to the citizens of Arlington generally that Mr. Harold Magnuson has announced his candidacy for the office of Town Moderator in the coming March 6th election.

Traditionally, our town moderators have been noted for their intellectual ability, their high civic-mindedness and their impartiality. Mr. Magnuson's qualifications along these lines are so outstanding that he will make a most worthy successor to such former Moderators as Ernest W. Davis, William Barry, John Colbert and Judge Brackett.

The office of Moderator is one of great importance in Town Government. The Moderator not only presides at all Town Meetings, but he has many other powers such as appointing members of special committees and the all-important town Finance Committee.

The Moderator is generally regarded as the number one citizen in our Town Government. Mr. Magnuson in my opinion has the education, the experience, the integrity and the personality to be a good, impartial Moderator. I think Arlington is fortunate he is willing to serve.

FIRST VETERANS' FAMILIES MOVE INTO HOUSING PROJECT

The first families of World War II veterans to occupy Arlington's Veterans' Housing development moved in this week. Some 20 families will move into their new apartments during the next two weeks and eventually more than 100 families will have settled down in what promises to be one of the most attractive projects in the State.

Exterior work on all the buildings has been completed and the interior finish is being rushed to permit the families selected by the Arlington Housing Authority to move in as soon as possible. Considerable work remains to be done insofar as landscaping is concerned, however, but the immediate problem is to find homes for families that have been forced to "double up" with others since the end of the war.

An open house to permit public inspection is planned some time in the Spring after the grounds have been landscaped.

An informal inspection of the first completed apartments took place as scheduled Tuesday forenoon when several town officials visited the project at the invitation of the Arlington Housing Authority.

The inspection party included W. Dale Barker, Joseph Vahey, Harold Magnuson and Torsten Reenstierna of the Housing Authority, Thomas J. O'Neil, chairman of the Board of Public Works, Town Clerk James J. Golden, Assessor William O. Hauser, Building Inspector Paul H. Mossman, Representatives Hollis M. Gott and Henry E. Keenan, Robert Hauser, executive secretary of the Housing Authority, and Roy Swanson, representing the State Housing Board. Also present was Harold C. Knight, architect who drew the plans for the colonial style buildings.

All were impressed by the modern conveniences incorporated in the apartments, which include a gleaming all-electric kitchen, living room, chambers with ample closet space, laundry in basement, individual oil heat, etc. Frills were eliminated but quality of materials and workmanship was noticeable in the two apartments inspected.

Magnuson Receives Townwide Support

Over 1700 signatures on nomination papers for Harold E. Magnuson were filed with Town Clerk James J. Golden.

The many persons who joined in nominating Mr. Magnuson as moderator represent all sections of the Town. They indicate widespread and enthusiastic support for Mr. Magnuson from the voters as a whole.

The Magnuson for Moderator Committee has now organized throughout the Town with workers in every precinct. Chairman Herbert O. Alderson has scheduled several meetings in the next few weeks when detailed campaign plans will be developed and carried into effect.

TWO CHARGED WITH BREAKS

A few minutes after being notified that two men were attempting to break into the house at 143 Park ave., Tuesday night, Patrolmen William Burns and George Alexie arrested the pair on Paul Revere road, Arlington Heights.

Police gave the names of the two men as Joseph G. Dermady, 20, of 54 Webster st., and John J. Perry, 22, of 292 Columbia st., both of Cambridge. They were taken to police headquarters where they were held overnight awaiting arraignment in East Cambridge Court yesterday on charges of breaking, entering and larceny in the nighttime.

The two men also broke into the Floravanti home at 3 Lorne road, where they obtained a small sum of money, also on Tuesday night, according to police. They are also said to have been involved in three other Arlington house breaks last Friday night, at 17 Temple st., 74 Highland ave., and 29 Gloucester st. About \$40 was stolen in the Friday night breaks.

Boys' Club Board To Hear Hayden

Next Tuesday, at the Pond Lane clubhouse, the officers of the board will conduct the annual meeting of the Arlington Boys' Club.

Maurice Sandler, president, will preside at the installation of officers and new board members. Following the dinner, Thomas J. Craighead, regional director of the Boys' Clubs of America will bring the greetings of the national office. Honor guest and speaker will be J. Willard Hayden, president of the Charles Hayden Foundation and well known philanthropist.

CITIZENS' COMMITTEE BACKS DONOGHUE, HARRIS, RAWSON

The Arlington Citizens' Committee at a lively meeting in the Old Town Hall Tuesday evening selected the candidates whom it will endorse in the town election next month for all offices but the park commissioner and library trustees. Endorsements for the latter two offices were put off until next Tuesday evening.

Endorsement by the committee has been eagerly sought by candidates for town offices in past years. Tuesday's selections, in some cases, were a foregone conclusion, while in others they proved a genuine surprise.

The Committee voted to endorse Stephen S. Donoghue for Selectman over his opponent, Edmund L. Frost.

George A. Harris was the choice for moderator over Atty. Harold Magnuson.

Thomas R. Rawson was endorsed in the three-man race for the Board of Public Works.

Walter S. Coolidge, Jr., who is seeking re-election as Assessor, was endorsed by the committee.

For School Committee, the Citizens' group endorsed John P. Morine and M. Norcross Stratton.

who seek re-election; and Mary M. Boyd.

John O. Parker and Harvey C. Abbott were endorsed for the three-year term on the Planning Board while Robert Mahoney was given the endorsement for the one-year term.

Harold Yeames was endorsed for Sinking Fund Commissioner.

Dr. Joseph Carroll was the committee's choice for the Board of Health.

Candidates for other offices, all of whom are unopposed, received the endorsement of the committee. They are: Edward Clark, trustee of Farmer fund; Robert Moore, trustee of Pratt fund; Arthur Kimball, cemetery commissioner; and Joseph Vahey, Arlington Housing Authority.

It is understood the qualifications committee recommended the endorsement of Roscoe O. Elliott and Atty. Francis Keefe for Library Trustees, and George Fusco for Park Commissioner, but action on the committee as a whole was tabled until another meeting of the Citizens' Committee next Tuesday when additional candidates may be endorsed for these two offices. Atty. Phil L. Pellegrini presided. Roderick D. Bates is secretary and Ira Smith, treasurer, of the Citizens' Committee.

OPALS

Recently a customer asked us to get him a selection of loose Opals so that we could make up a ring, for him. They just came in and are they beautiful. Mostly Fire Opals with a few Harlequins. They are the October birthstone and to me they are one of the finest of Gem Stones. No two are ever alike and their play of color is truly remarkable. They range in price from about \$20.00 to \$150.00 a stone and a plain yellow gold mounting would cost about \$25.00. But if you would just like to see and admire these Opals feel free to drop in.

If You Value Your Health — and If You Value Your Liberty

IF YOU AGREE THAT
Compulsory Health Insurance — Political Medicine —
Is Bad Medicine for America !

YOU CAN HELP KEEP POLITICS OUT OF MEDICINE!

Your Medical Program . . .

COMPULSORY? — or — VOLUNTARY?

Compulsory

Compulsory Health Insurance is politically-controlled medicine, proposed by the Federal Security Administration. It is not "insurance" by any means!

It proposes a new tax to support a Government-regulated medical system—with physicians, dentists, druggists, nurses, hospitals—and patients—in lockstep under it.

What Is It?

Voluntary Health Insurance is the protection offered by sound, prepaid health Plans.

They provide the finest medical, surgical and hospital care in the world—on a budget-basis.

Today they take the financial shock out of illness for 55,000,000 Americans!

Compulsory

A Government agency proposes to:
Collect the tax Control the money
Set the rules Determine the services

Direct doctor and patient participation
Dominate every citizen's medical affairs.
Compulsory Health Insurance in Germany has required one Government employee for every 100 people covered.

In the U. S., that would mean 1,500,000 clerks, bookkeepers, administrators and tax collectors on federal payrolls—wasting medical dollars!

Who Controls It?

There are approximately 100 non-profit prepaid medical care Plans sponsored by physicians.

In addition to Blue Shield Medical Plans there are the great Blue Cross Hospital Plans. There are hundreds of Accident and Health Plans sponsored by insurance companies.

There are many industrial Plans, fraternal programs, labor-governed Plans and group clinics with their own prepayment systems.

The choice is broad. The competition between groups for lower rates and expanded benefits is both healthy and American.

Compulsory

Under the payroll deduction system proposed, everybody with a job or income pays—whether he wants the service or not.

Veterans will pay—though they already have paid in war service for medical care.

Millions will pay—who already are prohibited participation.

Millions will pay—who already are protected under Voluntary Health Plans of their own choice.

Who Pays for It?

You pay—only if you like the service and the price.

You choose the Plan that fits your needs and your purse, just as you shop for other family needs.

Free choice in buying clothes or cars or life insurance or health insurance is as American as huckleberry pie.

Under the Voluntary System, unless you like the product, you don't pay the price.

Compulsory

The best estimates of tax economists range from 4 to 15 billion dollars a year.

Tax estimates range from 3% to 10% on every paycheck up to \$4800—half paid by the employee and half by the employer.

Self-employed would pay the whole amount.

What Is the Cost?

Different types of coverage are geared to fit different needs and different family budgets.

An average Plan—medically-approved and guaranteeing medical, surgical and hospital care—costs \$2.50 a month for an individual and \$5.50 for a family, irrespective of size.

Compulsory

The double burden of Compulsory Health Insurance is in the low quality of medical care it offers—and the exorbitantly high costs.

No pridesful American would tolerate the type of medical service available to the average Englishman under Compulsory Health Insurance!

Yet the British system went in the red over 200 millions in the past nine months. And it will take many millions in new taxes—British and American—to bail the system out!

The big worry in American homes today is not the medical bill—but the tax bill!

Can We Afford It?

In the average household, medical bills, according to the Brookings Institution, take only 4% of income. But Government taxes drain away from 20% to 30% of every paycheck in the Nation!

If taxes on cigarettes, for instance, were removed, a pack could be bought for a nickel!

If a family can afford a daily pack of cigarettes or a weekly movie that family can buy the finest health insurance in the world. The cost is about the same. If not—such a family certainly can't afford the proposed new payroll tax!

Figure it out on your paycheck.

Compulsory

No benefits whatsoever are guaranteed under the Compulsory Plan. But every rosy promise in the political book is made!

The sponsors wrap up their promises in this typically political language: "when funds are available"—insofar as possible—"when facilities permit".

Services could be restricted at the whim of Administrators—but there is no tax limit!

The only absolute guarantee is the guarantee of a new payroll tax—the amount unpredictable!

What Are the Benefits?

Under Voluntary Health Insurance, 55 million Americans have specific guarantees in writing, both as to costs and benefits.

They have freedom of choice of doctor, hospital—and type of service.

They have dependable protection from financial shock in time of illness or accident—under the finest health care system in the world today!

Proof of satisfaction is in the mounting millions of enrollments throughout the Nation.

Compulsory

In every great Nation which has tried Government-controlled medicine—Germany, Russia, France, England—the result has been:

Second-rate medical care

Decline of medical education and research
Invasion of the patient's personal privacy
Political control substituted for medical direction

A new hierarchy of Federal administrators
Constantly mounting tax burdens
Extension of controls over other professions

Is It Good for America?

Unfettered, American medicine leads the entire world.

It has made Americans the healthiest, strongest, best cared for people on earth.

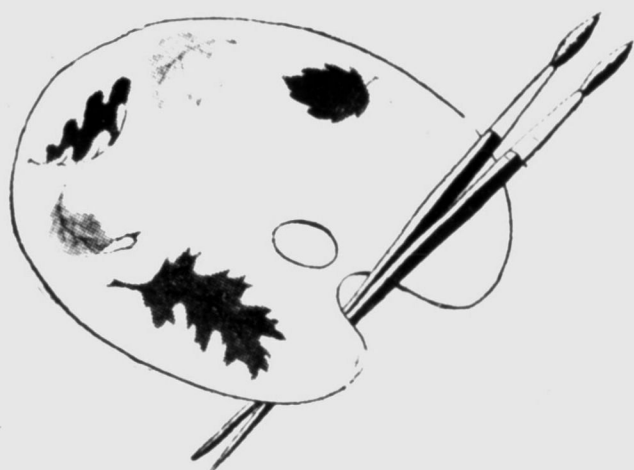

It furnishes daily proof that there is no need to import the medical systems of a sick, harassed Europe to a strong, healthy America.

The scientific advances of American medicine in conquering disease and extending life are recognized as foremost by the entire world.

Write your Congressmen and Senators today.

MTA Fare

(Continued from Page One)
The new fare collection is the same one that was in effect for years prior to Dec. 14, 1946, when the system was on a flat fare with universal transfer privilege and with local rides at a lower rate, without transfer.

Under the new fare structure, each passenger will make a single fare payment, instead of being required to make at least two fare payments for a combination surface and rapid transit ride, as has been the case since August 6, 1949.

Transfers Return
The 15c fare will be collected from the passengers either as they enter or leave surface vehicles, or at fare boxes as they enter rapid transit or subway stations.

Transfers for use at established transfer points will be issued, upon request, to passengers who have paid the 15c fare. The transfer points are identically the same ones which were in effect prior to August 6, 1949.

On 101 of the 121 surface lines,

passengers desiring local 10c rides will simply deposit 10c cash in the fare box, either when entering or leaving the surface vehicle.

Manpower Group To Sponsor Talk On Berlin Airlift

New developments in air power as a modern weapon of national defense will be revealed at an open forum sponsored by the Arlington Military Manpower Committee, in Robbins' Library Hall next Wednesday evening at 8.

Two films will be shown. The first, "The Air Force Comes of Age," will demonstrate the newest defense program. The second, "Operation Vittles," is a documentary film of the struggle to feed the people of the western sector of Berlin throughout two years of blockade by the operation of the Airlift. One of the heroes of this vital United States victory will be the speaker with this picture. He is Capt. Robert J. Green, U.S.A.F., who spent two years on this assignment and is just back and now making his home in Arlington. Maj. Roy Millar, U.S.A. Public Information Officer, N. E. District, who has seen war service all over the world and was in charge of the Eighth Army Prison in Japan at the close of the war, will also be on this program. He also is a resident here.

Invitations have been sent to all organizations. There will be a social hour and refreshments.

Enlistment in the Air Force is being stressed right now since career opportunities are being offered to both college graduates and those having only two years college preparation. The Aviation Cadet program with its officer training, eventual commissions, better pay, more security with great experience and adventure is a field of endeavor that is tops for every young man's ambitious planning.

Mrs. Stanley R. Kingman, 21 Gould road, chairman of the Manpower Committee, will gladly counsel parents and their sons on this program.

In precinct 11, no less than 36 filed with 18 to be elected while in precinct 13, 29 filed for the 18 seats. In precinct 14, 30 filed with 21 to be elected.
